SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

Earthquake Events, Ocotillo Wells, San Diego County (Final)

On 05/13/18 at 0837 hours, the Cal OES Earthquake and Tsunami Program Duty Officer (EQTP-DO) reported that in the previous 24 hours there were 36 earthquake events from 1.4M to 3.5M reported in the area 14 Miles ESE of Ocotillo Wells. Dr. John Parris of the California Geological Survey stated that this series is a release of tension at the intersection of the Superstition Hills Fault that runs north to south and the Elmore Ranch Faults that runs east to west. Events like this occur a couple times a year in the general Salton Sea area.

- The three largest events:
 - 05/12/18 at 1731 hours, verified 3.5M at a depth of 1.0 miles
 - 05/12/18 at 1737 hours, unverified 3.5M at a depth of 6.1 miles
 - 05/13/18 at 0508 hours, verified 3.4M at a depth of 0.5 miles
- There have been no reports of damage or injury.
- Per the EQTP-DO as of 05/14/18 at 0848 hours, the activity in the area has decreased in number of occurrences and magnitude since the last reporting period. There were 11 events from 1.3M to 2.8M in the past 24 hours. EQTP-DO will continue to monitor and consult with the State Geologist, but this will be the final report unless the situation warrants an update.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 1	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 1	Multi-Agency Coordination System MACS Mode: 1

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

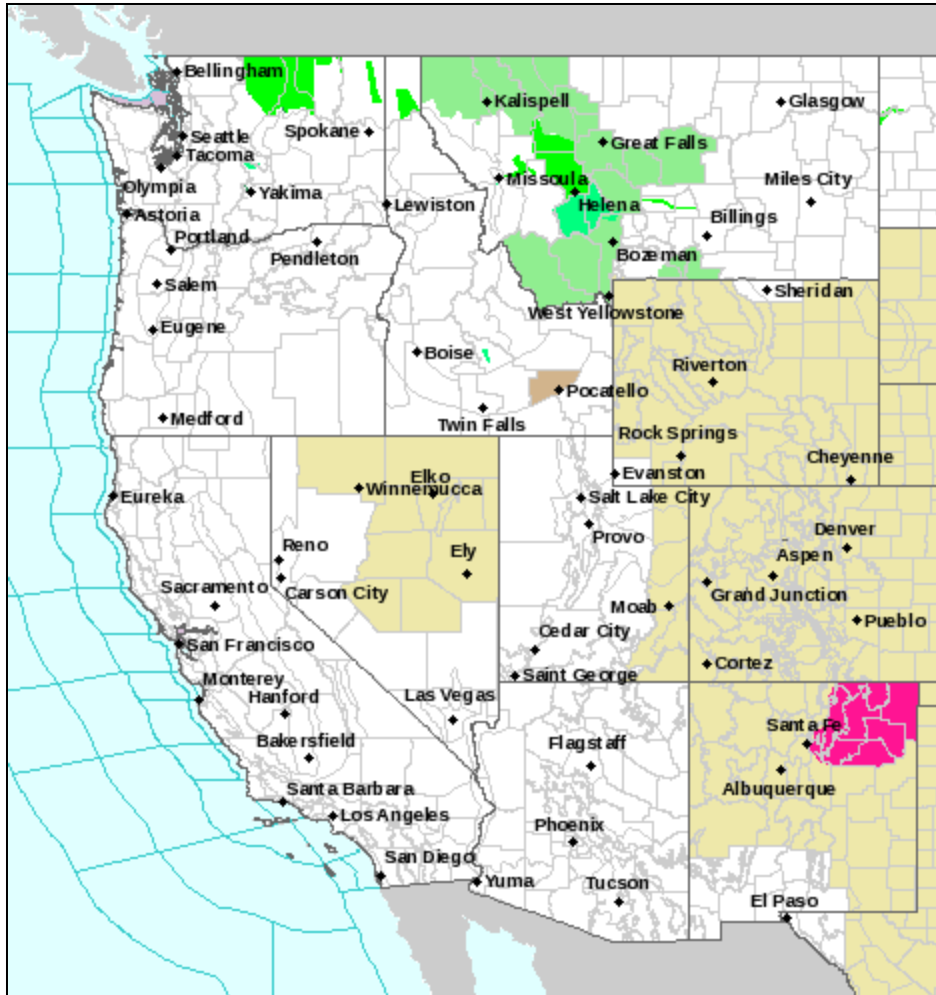

Unsettled weather pattern over Northern California for the next 7 days with a few weather systems affecting the region. Daily chance of some showers and isolated thunderstorms, mainly in the mountains today and Tuesday. Probably a bit more wide spread and numerous Wednesday and tapering off after that, but chances are not entirely going away over the mountains through the weekend. Temperatures will remain a bit above seasonable values all week. The warmest inland areas will be mostly low and mid 80s. Some areas with gusty afternoon W to S winds Tuesday and Wednesday.

SOUTHERN CALIFORNIA

Low pressure over Nevada will sit and spin through Tuesday and then it will combine with another area of low pressure that will move inland into Central California from the Pacific Ocean Wednesday. This combined low will move slowly off to the east into the Great Basin and then be replaced by a third low that moves into Central California from the Pacific Ocean this weekend. These low pressure areas will allow isolated showers and thunderstorms to form over the Sierra each afternoon through this weekend. Westerly afternoon and evening winds of 15 to 25 mph with gusts to 40 mph will surface across the wind prone mountain and desert areas through this weekend. Temperatures will be a little below normal through this weekend, with mid 50s to mid 60s across the mountains and 70s to low 80s in the valleys.

Cal OES LAW ENFORCEMENT MISSIONS

Ongoing Cal OES Law Missions

- **2018-LAW-46688, 05/11/18, 0657 hours:** The Air Force Rescue Coordination Center (AFRCC) advised of a possible ALNOT involving a Beechcraft Model 76, Tail# N803FC, with two souls on board scheduled to fly on 05/10/18, from Santee to Victorville and return to Gillespie Field in San Diego County. AFRCC advised ramp checks had been conducted with negative results. At 0723 hours, the Cal OES Law Enforcement Branch Duty Officer (LDO) requested Civil Air Patrol (CAP) be activated and AFRCC opened mission #18M0289A. At 0756 hours, LDO spoke to San Diego Sheriff's Department (SDSD), who confirmed they were assisting CAL FIRE with a fire that was believed to be from a small plane crash that occurred 05/10/18, in the area of Volcan Mountain. Based on the last known position of the ALNOT, it is suspected this may be the same plane which crashed last night. SDSD is on scene but cannot make access to the site for identification until the fire is stopped. LDO updated AFRCC. **Update: 05/11/18, 1720 hours,** SDSD advised ground teams made it to the suspected crash site but were unable to positively identify the plane or any victims due to access issues caused by the fire. SDSD advised the site has been secured and they will assist with Medical Examiner (ME) and NTSB investigators on 05/12/18. LDO updated AFRCC and requested CAP resources be released. **Update: 05/12/18, 1410 hours,** SDSD advised they are still unable to positively identify the plane or victims due to the current fire situation. SDSD is planning to respond and assist the ME and NTSB investigators in the early morning of 05/13/18. **Update: 05/13/18, 1943 hours,** SDSD advised they have secured the remains of three victims and have provided information to the NTSB for identification purposes of the plane. SDSD plans to extract the three victims by helicopter on Monday, 05/14/18, pending current weather restrictions. Positive identification of the victims and plane are still pending further investigation. **Mission Ongoing.**

Closed Cal OES Law Missions

- **2018-LAW-46741, 05/13/18, 1842 hours:** International Emergency Response Coordination Center (IERCC) advised of an inReach "SOS" activation at GPS coordinates plotting on the John Muir Trail within Yosemite National Park (NP). IERCC advised the R/O had texted that he and another hiker were in impassable snow fall but had plenty of supplies and equipment and wanted advice from Yosemite NP. IERCC relayed the information directly to Yosemite NP dispatch. At 1900 hours, LDO talked with Yosemite NP and confirmed they had received the activation and confirmed there was inclement weather reported at the given coordinates. **Update: 05/13/18, 1900 - 2010 hours,** IERCC was able to communicate with the R/O and learned they had no medical emergencies and had appropriate equipment and supplies for the conditions. The R/O agreed to shelter in place for the night and to head back down to the Valley floor tomorrow, 05/14/18, after the storm passed. Yosemite NP advised they would follow up and check on the hiking party on 05/14/18. **Mission Closed.**
- **2018-LAW-46732, 05/13/18, 1518 hours,** IERCC advised of an inReach "SOS" activation at GPS coordinates plotting near Switzer Camp in Los Angeles County. IERCC advised the R/O had activated his device for a male victim in his hiking party that was having trouble breathing. IERCC contacted Los Angeles County Sheriff's Department (LASD) Dispatch and was transferred to Los Angeles County Fire (LACFD) where they relayed the information. Air Rescue-5 helicopter was deployed to the coordinates. **Update: 05/13/18, 1658 hours,** LACFD advised victim was located near the given coordinates, Switzer Falls, and airlifted to Huntington Memorial Hospital in Pasadena for medical treatment. LDO updated LASD Emergency Outreach Bureau (EOB) and IERCC. **Mission Closed.**

Cal OES LAW ENFORCEMENT MISSIONS

Closed Cal OES Law Missions (Continued)

- **2018-LAW-46723, 05/13/18, 0958 hours,** IERCC advised of an inReach “SOS” activation at GPS coordinates plotting along Mist Trail within Yosemite NP. IERCC attempted to communicate with the R/O but was unsuccessful. Yosemite NP Dispatch was contacted and the “SOS” activation and R/O information relayed to them. Yosemite NP assigned a Ranger who advised this was a well-traveled trail and they had not received any other distress calls. **Update: 05/13/18, 1020-1145 hours,** the signal continued to move along the trail back towards the Happy Loop Trail Parking Lot. At 1158 hours, the R/O responded via text that it was an accidental activation and he was not in distress. Yosemite NP was updated. **Mission Closed.**
- **2018-LAW-46706, 05/12/18, 2023 hours:** The Air Force Rescue Coordination Center (AFRCC) advised of a Personal Locator Beacon (PLB) activation plotting to a vacant field east of the Rios Canyon Mobile Home Park in San Diego County. AFRCC advised the registered owner (R/O) of the device had not updated registration for several years. The Cal OES Law Enforcement Duty Officer (LDO) checked on the R/O’s status and learned from a listed emergency contact they had not had any contact with the R/O for several years and could not provide any information. **Update: 05/12/18, 2034 hours,** LDO relayed the activation information to the San Diego County Sheriff’s Department (SDSD) Dispatch who deployed units to the area. SDSD advised they ran a California Driver’s License check and found no record on file for the R/O. At 2158 hours, SDSD advised they checked the area of the given coordinates and could not locate any signs of distress or the device. LDO updated AFRCC and it was agreed to follow up with Civil Air Patrol (CAP) on 05/13/18 if the device was still sounding. **Update: 05/13/18, 0636 hours,** AFRCC advised the device is still sounding and LDO requested CAP be activated to locate and silence. **Update: 05/13/18, 0737 hours,** AFRCC advised CAP Incident Commander (IC) assigned. **At 1024 hours, CAP IC contacted LDO and advised team located device and silenced it in a boat stored at 14365 Ruis Rd. The owner of the boat identified himself as the nephew of the R/O. Update: At 1113 hours, CAP IC advised ground team is back at home base and AFRCC updated. Mission Closed.**

Emergency Management Assistance Compact

- **2018-Cal OES-46751:** The State of Hawaii requested one (1) Geothermal Subject Matter Expert (SME) from the California Department of Conservation, Division of Oil Gas & Geothermal Resources, to provide support to the volcanic activity occurring in Hawaii. The SME has industry and regulatory experience, as well as knowledge of geothermal wellhead construction, operations, processes, risk management, and mitigation. The SME arrived safely in Hawaii on 05/13/18, and is anticipated to return to California on 05/19/18.

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
